## CSWC Operational Period Summary

### 1800 November 20 2017 to 0600 November 21 2017

Arleigh Burke-class guided-missile destroyer USS Wayne E. Meyer (DDG 108) rescued three mariners from a sinking vessel off the coast of San Diego on 11/18/17. DDG 108 is based in San Diego and is part of the Carl Vinson Carrier Strike Group. The strike group most recently completed a three-week sustainment exercise off the coast of Southern California in preparation for a scheduled deployment to the Western Pacific early next year.

# WEATHER OF CONCERN

## Weather of Concern

- Record breaking heat and offshore flow will bring very dry conditions and elevated fire danger for portions of Southern California tomorrow through Thursday.

## **Active Weather Warnings, Watches and Advisories by County:**

- <https://alerts-v2.weather.gov/counties/CA>

# WEATHER SYNOPSIS BY REGION

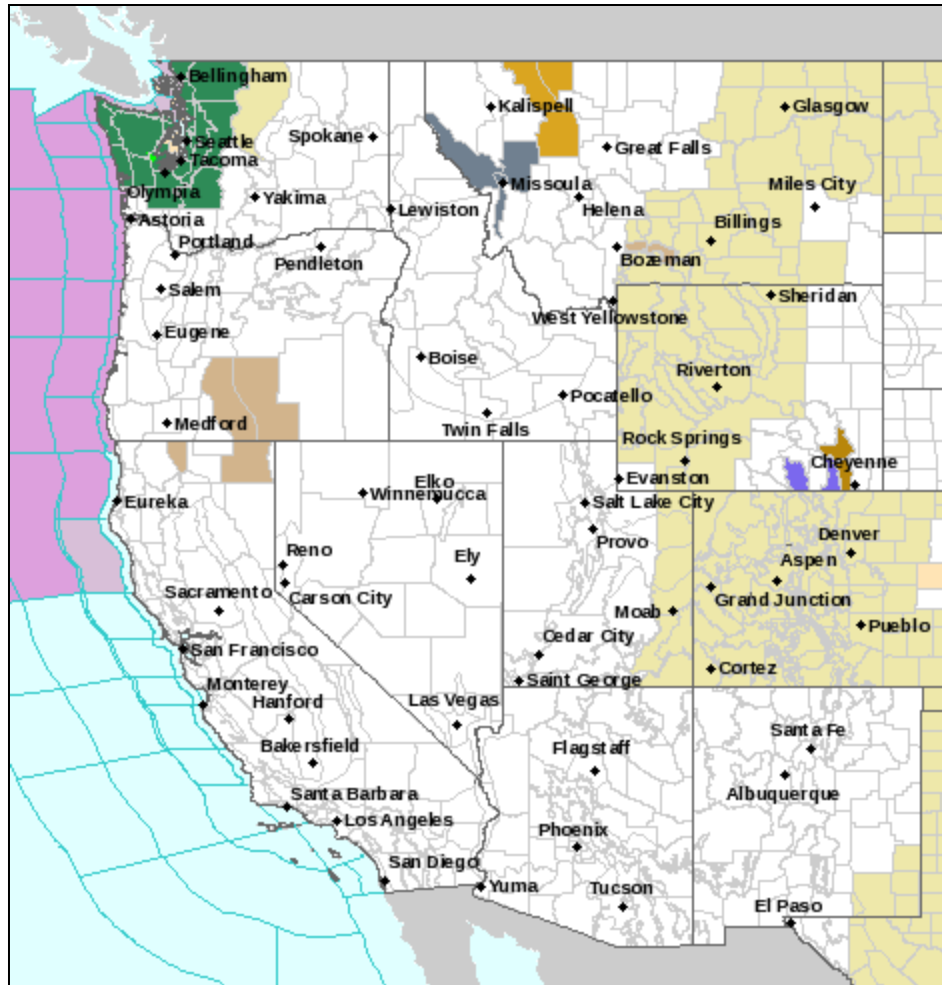

## **NORTHERN CALIFORNIA**

A Pacific storm system is moving through the region. The heaviest rain will continue to be in the NW mountains, where another 2-4 inches will fall today. Other mountain areas will receive 0.50-2.00 inches. Lower elevations and areas east of the Cascade-Sierra crest will receive up to an inch of rain, with areas farther south and west receiving the least. Snow levels are near 6000 ft. in the north and 7000 ft. or higher in the Tahoe area. The unsettled pattern with occasional light rain showers will continue through the end of the week. The main areas expected to see the light rain showers today-Friday will be the mountains in the north and west. Valleys in the east and south may be partly cloudy and not receive any rainfall from today-Friday. Gusty southerly winds will be common in the northern mountains during afternoons and evenings. Peak gusts could reach 40 mph or more for a few hours today.

## **SOUTHERN CALIFORNIA**

Maximum temperatures will be around 10 degrees above normal, with upper 50s and 60s across the mountains and 70s to low 80s in the valleys. The ridge of high pressure will become strong starting today, bringing significant warming away from the San Joaquin Valley through Wednesday. Record heat will be likely Wednesday and Thursday when many valley locations across the region will be in the low to mid 90s. The ridge will weaken bringing around 5 degrees of cooling each day Friday through this weekend. Minimum humidity will be mainly in the single digits and teens across the region and the Southern Sierra through the end of this week. Much of Central California will have minimum humidity above 20% today and then drop into single digits and teens Wednesday through the end of this week. Humidity will increase a little this weekend. Winds will be light through this weekend.
